

# GREECE WILL JOIN THE ALLIES

## NEW PREMIER IS FRIEND OF ALLIES

Landing of Allied Troops on Greek Soil is Guarantee of Greece's Alignment.

### RUSSIANS TO RECOVER

Violent Cannonading on French Front is Reported as Still in Progress.

ATHENS, Oct. 7.—"There has been no real understanding between King Constantine and myself since I resumed the premiership," former Premier Venizelos told Greek deputies and friends after his rupture with the king.

"The only subject upon which we are in full agreement," he said, "was the mobilization of the Greek forces in view of Bulgaria's equivocal attitude."

LONDON, Oct. 7.—The allies having broken off diplomatic relations with Bulgaria, news is momentarily expected of that nation's active participation in the war on the side of the central powers.

Its king and the late leader of its government being at odds, Greece is forming a coalition cabinet pending the construction of which its policy will be obscure. There are no misgivings in England, however, that it will co-operate in any way with Bulgaria. The cabinet crisis has in no manner impeded the landing of allied troops at Saloniki and the fact that these forces are on Greek soil is considered the best guarantee that Greece ultimately must align itself with the Entente powers with which Premier-elect Zaimis is in sympathy.

Champaigne in the West and Dynisk in the East are now the scenes of the struggles most likely to bring decisive results. The Germans are still engaged in concentrating against Dynisk, evidently bent on a supreme effort to take the city. The Russians, however, are delivering hard blows all along the line, and the British and French press profess to see a general Russian "recovery" for which the activities of the allies in the West are given credit.

Capture by the French of the village and hill of Tature is a success of considerable local importance. The hill, although less than 200 feet away, was one of the most important German positions in that sector.

On most of the remainder of the French front there is still in progress the violent cannonading which usually precedes infantry attacks.

### SERBIANS ARE ENTHUSED OVER LANDING OF FRENCH

NISH, Oct. 5, via Paris, Oct. 7.—(Delayed in transmission)—News of the landing of French troops at Saloniki spread throughout the country with great rapidity and caused intense enthusiasm. It is considered to have dissipated the grim shadow of Germany which was falling across the frontier.

These French troops which already have passed into Serbian territory are received at every station with the plaudits of the people. Women and children offer to the soldiers flowers, grapes and every sort of present. Macedonian notables presented the French officers with addresses affirming their Serbian nationality.

### GERMANS REPULSED AT SEVERAL POINTS

PARIS, Oct. 7.—The Germans bombarded violently last night all the French front to the north of Lausanne and at the same time delivered four counter attacks against the positions recently conquered by the French near Souchez. They were repulsed at all points.

There was furthermore intense artillery exchanges at other points on the front.

This information was given out by the French war office today.

In the Champagne district last evening the Germans delivered a series of stubborn attacks against the position, lost by them to the French to the north of Tature. These attacks everywhere failed and the Germans suffered heavy losses.

At Eparges the French exploded two mines causing serious damage to German works.

### ATTEMPTS TO DESTROY BRIDGES FRUSTRATED

BERLIN, Oct. 7.—"During the recent battles in western Europe," the Overseas News Agency says today, "efforts were made by the French, British and Belgians to land soldiers in civilian garb from aircraft behind the German front. These men had been ordered to destroy bridges and roads in order to impede the movement of German troops. A number of persons also were sent by way of Holland to Belgium with the same order."

"The attempts were frustrated by the vigilance of the German authorities."

LONDON, Oct. 7.—Alexander Zaimis has accepted King Constantine's invitation to form a new cabinet, according to a Reuters despatch from Athens. He has assured leaders of the opposition that they will be allowed representation.

## WILL DEFEND OUTER GARDEN FOR PHILS IN WORLD'S SERIES

Left to right: Paskert, Cravath, Whitted. Statistics don't help much in doping out the world's series, but with Cravath in the right field trenches, Paskert ready to capture anything that may wander out to center, and Whitted holding down the left field territory, it looks as if the Phillies will be able to make almost as good a showing in the outer garden as the famous Red Sox outfield in the world's series.

## HEAVY BALLOTING BY BABIES IN THE SHOWER OF GOLD CONTEST

Ruth Hood, James Moore and Mary Elizabeth Goe Are the Leaders.

### RING MUCH SOUGHT PRIZE

Bonus Votes Count Most This Period and Contestants Are Working Hard.

One of the strong features of the Clarksburg Telegram's Shower of Gold for Babies campaign Wednesday, was the heavy balloting by a few of the competitors. Ruth Hood, of Folsom, seems to have cast the heaviest vote up to date. She has 63,815 votes to her credit and leads the entire campaign. James A. Moore of Bristol, cast a big vote also and is just a few votes behind Ruth Hood. Mary Elizabeth Goe in the first district is leading with a good margin and is just a few votes behind the head ones in the second district. Quite a number of other babies made noticeable gains.

### Ring Offer Causes Activity.

The \$125 solitaire diamond ring seems to have its share of popularity, and all parents figure that by winning the ring they stand a better chance to win the big gold prize for their baby. The ring can be seen in the window of F. A. Robinson and Son, the Main street jeweler, at any time. You should call and see it and decide whether you would like to have it.

### Keep Busy All the Time.

Now is your opportunity to win the prize you want for your baby this period of the campaign, when you get so many votes. Do not slacken your efforts for a moment, but be persistent and get all the subscriptions you can this period, as they will never count for as many votes again.

Now is the time to put forth your best efforts and get the full credit of these votes. They may mean the winning of one of the big gold prizes. To be or not to be—to work hard from now until the end of the period and gain a reserve vote that cannot be beaten in the end, is a question that confronts the competitors.

If you will only appreciate the value of every hour during the short time that remains of the second period and make every effort within your power to get as large a number of subscriptions, particularly for the longer periods of time as you possibly can, you can be the one that will be the owner of one of the big gold prizes for your baby and the diamond ring as well.

Turn in every subscription this period that you can.

## PARENTHOOD IS ABLY DISCUSSED

Along with Other Social Purity Questions by Dr. McCuaig before Large Audiences.

Twice yesterday great audiences that crowded the First Baptist church, assembled to hear Dr. McCuaig. Day by day the interest in these unique meetings is increasing, till a larger auditorium is already becoming necessary.

Tonight at 7:30 o'clock Dr. McCuaig will discuss the question "If a Man Die, Shall He Live Again?" Tomorrow afternoon at 2:30 o'clock he will lecture on "Bad Books, Bad Pictures, Bad Plays." Both of these addresses will be in the First Baptist church.

This afternoon to a great audience of women Dr. McCuaig discussed "Hereditry."

"Hereditry," he declared, involves the influence of parents upon children before their birth. It has to do with the transmission of physical and mental and spiritual cast or tendency."

The writing of environment and the writting of hereditry were critically contrasted, and the scope of the study of the hour was declared to be the consideration of parentality.

"Three matters pertaining to parentality," said Dr. McCuaig, "have important, practical bearing on cast or tendency in children: First, the attitude of parents toward parenthood; second, the physical and mental and spiritual condition of parents at time of conception; third, the influence of mothers upon children during pregnancy."

In discussing the attitude of parents toward parenthood, it was stated that it is a commonly accepted fact that many children born into the world today are not children "of purpose," but are children "of accident."

Several incidents were cited illustrative of the fact that the welcome infant, which has been anticipated with joy, has the more aggressive, fearless nature, while the other is often painfully lacking in self-confidence. He condemned the action of young men who enter the marriage relation without the proper means or desire to continue the responsibility, and of girls who enter wifehood with the idea of putting off motherhood, declaring that when parents regard conception as a calamity, the effect is not unlikely to be harmful to the child.

Dealing with the condition of parents at the very hour of conception, Dr. McCuaig said: "The conception of a child is, as a single act, the most stupendous act of life; yet to no other act of life is so little thought given as to this. In the building of a house, that is to last perhaps fifty years, much consideration is given to plans; but in the launching of a child—a creation of eternal destiny—in place of thought and purpose, too often, but caprice and passion rule. Yet, it is not probable that in the very hour of conception the most significant formative influences in the character

of a child are being formed. Mrs. Benjamin F. Thompson and children are guests of relatives in Pennsylvania.

## Ceremony Will Be Private and Performed at the Home of the Bride.

WASHINGTON, Oct. 7.—President Wilson and Mrs. Norman Galt, whose engagement was announced last night at the White House, will be married probably the first week in December. The ceremony will be private, only a few close friends being invited, and will take place at the home of the bride on New Hampshire avenue, near Dupont circle.

Plans for the honeymoon have not been completed, but it was indicated today that the trip might include a visit to the San Diego exposition.

President Wilson and Mrs. Galt will make their first appearance together in public since the announcement of their engagement tomorrow in New York, where they go to a house party given by the president's close friend and unofficial adviser, Colonel E. M. House. Tomorrow evening they will attend a theater party in New York, and the next day on their return toward Washington will see the second game in the world's baseball championship series at Philadelphia. The party will include Col. and Mrs. House, Mrs. Galt's mother, Mrs. Bolling, Miss Helen Woodrow Bones, the president's cousin, Secretary Tamm and the president's personal physician, Dr. Grayson.

Early today a messenger carried a great bouquet from the White House conservatories to Mrs. Galt's home in a portion of the residence district, known as the Hub of the social season, the scene of many brilliant affairs in national society. Mrs. Galt herself besieged by friends coming to offer congratulations and interviews denied herself to all but closest friends and declined to add anything to the simple announcement formally issued at the White House, saying only that she and the president of the United States were to be married.

Tomorrow's party given by Colonel House will be only the first of many events which are being planned for the presidential party before the time of the wedding. Invitations and congratulations began pouring into the White House office today in such volume that as on previous occasions when the White House had a wedding on hand a special staff of clerks was prepared for assignment.
